Information on auditor's membership in independent audit organizations

Full business name: **Russian Institute of Professional Auditors**

Address: **Nametkina Str., 1/14, offices 812, 813, Moscow, 117420**

Information on auditor's membership in panels, associations or other types of professional organizations.

Nexia Pacioli, LLC is a part of international audit and consulting group Nexia International (1996)

Fiscal year (years) in which the Auditor carried out an independent audit of accounting records and financial (accounting) reports of the Issuer

Year
2009

Factors that can affect the Auditor's independency of the Issuer including information on existing substantial self-interest of the auditor (officers of the Auditor) in the activities of the Issuer (officials of the Issuer).

***Factors that can affect the Auditor's independency of the Issuer as well as substantial self-interest of the auditor (officers of the Auditor) in the activities of the Issuer (officials of the Issuer) do not exist.***

Procedure for selection of the Issuer's Auditor:

Tendering procedure for the selection of auditor and its general conditions.

The Issuer's auditor was selected by Tender. To take part in Tender, audit organizations had to meet the following requirements:

- not to be under the liquidation;
- not to have the decision ordering the suspension of activity issued in compliance with the Code of Administrative Offences of the Russian Federation at the date of the approval of the application for Tender;
- not to have unsettled tax liabilities, unpaid levies and other outstanding statutory payments to all budget levels or to state non-budgetary funds from the previous calendar year, the amount of which exceeds twenty five percent of the applicant's book value of assets as appears on financial statements for the most recent closed reporting period. Tender applicant is deemed as being in compliance with the specified requirement in case the applicant appeals against the mentioned debts in compliance with the laws of the Russian Federation and the judgment on such appeal has not been issued at the date of the approval of the application for Tender;
- not to meet the conditions (in respect to the Company and SDCs to IDGC Holding, JSC) listed in the paragraph 1 of the Article 12 of the Federal Law "On Auditing Activities" of August 7, 2001 No. 119-FZ.

Procedure for nominating auditors for appointment by the Meeting of Shareholders including management body authorized to make such decision.

Based on Tender results, the Board of Directors of the Company nominates an auditor for the approval by the General Meeting of Shareholders.

The Board of Directors of the Company (Minutes No. 17 of May 24, 2009) recommended the General Meeting of Shareholders to approve Nexia Pacioli, Limited Liability Company, as the Auditor of IDGC of Volga, JSC.

By the decision of the Annual General Meeting of Shareholders of IDGC of Volga, JSC, (Minutes No. 2/2009 of June 10, 2009) Nexia Pacioli., LLC, was assigned to audit 2009 financial (accounting) reports of IDGC of Volga, JSC.

The Issuer's Auditor shall carry out an audit of the Issuer's financial and business activities in compliance with the laws of the Russian Federation and under concluded contract.

Information on special audit engagements:

There were no special audit engagements in the reporting period.

Information on the procedure for determination of Auditor's compensation and the actual amount of fee paid by the Issuer to Auditor for each of five most recent closed fiscal years in which the Auditor carried out an independent audit of accounting records and financial (accounting) reports of the Issuer:

The amount of fee payable to the Auditor approved by the Annual General Meeting of Shareholders of the Issuer for services of conducting annual compulsory audit and validating annual financial reports is determined by the Board of Directors of the Company in accordance to the paragraph 24.9 of the Article 24 and the subparagraph 14 of the paragraph 15.1 of the Article 15 of the Charter of the Company.

Pursuant to the terms and conditions of the contract concluded between IDGC of Volga, JSC and Nexia Pacioli, LLC, the following payments were made for the completion of the first stage of audit of financial reports of IDGC of Volga in conformity to Russian Accounting Standards for 2009:

- 1,032.5 thous. rubles for the 1<sup>st</sup> stage of the audit in 2009;
- advance payment in the amount of 516.25 thous. rubles for the 2nd stage of the audit in Q1 2010;

Information on existing deferred or outstanding payments for audit services:

There are no deferred or outstanding payments for audit services provided.

Procedure for nominating auditors for appointment by Meeting of Shareholders including management body authorized to make such decision.

Nominee auditors assigned to carry out an audit of consolidated financial reports of IDGC of Volga, JSC, in accordance with the International Financial Reporting Standards are not put forward for consideration by the General Meeting of Shareholders.

Information on special audit engagements shall be specified.

There were no special audit engagements.

Information on the procedure for determination of Auditor's compensation and the actual amount of fee paid by the Issuer to Auditor for each of five most recent closed fiscal years in which the Auditor carried out an independent audit of accounting records and financial (accounting) reports of the Issuer:

The amount of fee and the payment procedure for auditor's services are provided in the contract concluded between the Company and the Auditor. The following payments for 2007-2009 were made to the Auditor for consolidated financial reports of IDGC of Volga, JSC, in accordance with the International Financial Reporting Standards:

- 27,500 thousand rubles (w/o VAT) for 2007-2008;
- advance payment in the amount of 6,000 thousand rubles in the 4<sup>th</sup> quarter of 2009 and 6,000 thousand rubles in the 1st quarter of 2010.

Information on existing deferred or outstanding payments for audit services:

There are no deferred or outstanding payments for audit services provided.

#### **1.4. Information on the Issuer's Appraiser(s)**

*The Issuer did not assign Appraisers*

#### **1.5. Information of the Issuer's Advisors**

*The Issuer did not assign Financial Advisors*

#### **1.6. Information on other Signatories of the Quarterly Report**

*There are no additional signatories*

## **II. General Information on the Issuer's financial and economic performance**

### **II. General Information on the Issuer's financial and economic performance**

#### **2.1. Indicators of the Issuer's Financial and Economic Activity**

Measurement unit: *thousands of rubles*

Item name	2007	2008	2009	2010, 3 months
Net worth	10,301	40,821,708	40,979,424	41,183,873
Debt-to-equity ratio, %	370.43	24.18	21.83	20.71
Short-term liabilities-to-equity ratio, %	370.14	11.21	6.56	9.64
Debt service coverage ratio, %	0	143.13	120.49	140.56
Default rate, %	0	13.4	15.3	26.1
Receivables turnover ratio, the number of times	8.63	6.91	8.24	2.59
Dividend payout ratio, %	0	0	0	0
Labor productivity, thousands of RUR	3,378	1,676	1,536	510

per person				
Depreciation to sales ratio, %	0.01	8.72	11.65	8.23

The total value of net assets of IDGC of Volga, JSC as of March 31, 2010 amounted to 41,183,873 thousand rubles, which is higher by 204,449 thousand rubles than the same in 2009 and by 362,165 thousand rubles than the same in 2008. The ratio of raised funds to capital and reserves as of the end of the reporting period amounted to 20.71 %, and the ratio of short-term liabilities to capital and reserves amounted to 9.64 %.

Accounts receivable turnover based on the results of the given period amounted to 2.59 times. Value of this indicator based on the results of 2009 reached 8.24, which is higher by 1.33 points than the value in 2008.

Productivity of labor in the Company based on the results of activities for 1 quarter of 2010 amounted to 510 thousand rubles per person. The unit weight of depreciation in the volume of proceeds for 1 quarter 2010 amounts to 8.23 %.

Based on the results of the issuer's activities for the given periods, no dividends were accrued.

Comparison and analysis of the dynamics of indicators for 2009 with data for 2008 is not presented, since in 2007 and the 1st quarter of 2008 the Company carried out its activities as a management company, which does not allow to compare the results of the issuer's activities in these periods correctly.

## 2.2. The Issuer's market capitalization

*Market capitalization is calculation by multiplying the number of shares of a certain class (category) with the current market price of a share as disclosed by a securities trade organizer and determined in accordance with the Procedure for Calculation of Market Price of Issue Securities and Mutual Funds Admitted for Trading through Trade Organizers No. 03-52/ps approved by the Ordinance of the Russian Federal Securities Commission of December 24, 2003.*

Item name	2007	2008	2009	1 quarter 2010
Market capitalization, rubles		11,982,570,456.80	23,179,398,588.75	24,322,296,516.09

Information on securities trade organizer that provides data used for the calculation of market capitalization and any other information on public trading of securities described at option of the Issuer:

The Company's shares appear in the Quotation List B of MICEX Stock Exchange Closed Joint Stock Company, and the over-the-counter margin stock list of RTS Stock Exchange, Joint-Stock Company.

Information on capitalization for each previous financial year:

	2007
Market capitalization, rubles	The Issuer's shares were not traded on trading floors of securities trade organizers

Market capitalization of IDGC of Volga, JSC provided in this section relies on data from CJSC "MICEX Stock Exchange" (<http://www.micex.ru>) as of the last date of each mentioned reporting period.

## 2.3. Issuer's Liabilities

### 2.3.1. Payables

**List of the Issuer's payables**

For 2009

Measurement unit: **RUR**

Type of payables	Due date	
	Less than 1 year	More than 1 year
Payables to suppliers and contractors	800,640,885	0
including arrears	74,430,015	x
Payables to employees	210,930,981	0
including arrears	0	x
Payables to budget and state non-budgetary funds	712,359,664	0
including arrears	0	x

### **2.3.3. Issuer's liabilities for collateral pledged to third parties**

*There are no such liabilities*

### **2.3.4. Other liabilities of the Issuer**

*The Issuer does not have other liabilities not recognized on its balance sheet which can substantially affect its financial standing, liquidity, financing sources and conditions of their use, business performance and expenses*

### **2.4. Primary purposes of issue and intended use of funds raised from issue of securities**

*The Issuer did not place its securities through public offering in the reporting quarter*

#### **2.5. Risks Involved with Acquiring of Issue Securities to Be Placed (Placed)**

The Issuer's risk management strategy:

The Company's risk management policies focus on timely identification and prevention of possible risks to minimize their negative impact on financial and business activities of the Company.

Risk management process includes the following phases:

- risk factors identification;
- risk assessment;
- selection of a risk management method.

Risk factors identification includes analyzing the data on the amount of risks, their interconnection and manageability as well as on the probability of losses associated with these risk factors and measures that could minimize possible losses or decreased income.

Risk assessment is based on the comprehensive research of the financial and business activities and external environment, the analysis of internal and external risk factors, building and analysis of outcomes for each risk factor as well as building mechanisms and models on the relationship of risk indicators and risk factors.

Risk assessment is performed after all risk indicators and sources have been identified and put into one of the following categories - existing risk, predictable risk and unpredictable risk.

The use of assessment methods depends on the category to which identified risks are assigned. As far as existing risks are concerned, the assessment uses, for example, estimates of expected losses and estimates of maximum decrease (at the fixed confidence level) in manageable indicators values provided that there are related data in the form of forecast estimates.

When assessing predictable risks, the focus is on building scenarios under which targeted indicators can decline down to threshold levels.

In some cases when the Issuer does not have enough statistical data, expert scenario modeling method is used.

The Issuer uses various methods to achieve an optimal (tolerable) risk level depending on the nature of business situation. The diversity of risk management methods applied can be divided into four types:

- risk aversion (avoiding unreliable partners and risky projects, business risks insurance, seeking for guarantors);
- risk localization (building working teams to complete risky projects);
- risk diversification (credit and investment portfolio diversification);
- risk compensation (strategic planning, monitoring of social and economic situation and regulatory environment, creating the system of reserves).

### **2.5.1. Industry Risks**

Projected development trend of the industry depends on the overall trend of social and economic development of the region and other industries of the Russian economy.

Consumer demand for the Issuer's industry services is steady and is subject to minor fluctuations. However, due to the crisis in the global and Russian economy and, thus, stagnation of real sector, there are risks of considerable decrease in the power consumption by industrial sector, which can lead to lower revenue from distribution grid services and, accordingly, poorer financial performance.

The Issuer generates most of its sales from power supply services to customers in 7 regions: Saratov Region, Samara Region, Ulyanovsk Region, Penza Region, Orenburg Region, Republic of Mordovia and Chuvash Republic.

Besides the Issuer other large grid companies operate on the territory of these regions, each confined to a certain area.

- in the Samara Region: “Samara Municipal Electric Power Grids”, JSC, “Samara Grid Company”, JSC, “Elektroset,” JSC;
- in the Saratov Region: “Oblkommunenergo”, JSC, “Saratov Enterprise of Municipal Electric Power Grids”, JSC, “Gazpromenergo”, LLC, RZD JSC “Privolzhye Railway” Branch, “Energosbyt”, RZD JSC “South-Eastern Railway” branch, “Promenergo”, LLC, “Balenergoset”, LLC;
- in the Ulyanovsk Region: Municipal Unitary Enterprise “Ulyanovsk Municipal Electric Power Grids”, “Ulyanovsk Grid Company”, JSC;
- in the Orenburg Region: South Ural Branch of “Gazpromenergo”, JSC, State Unitary Enterprise “Orenburg Utility Electric Power Grids”;

- in the Penza Region: “Penzenskaya Gorelektroset”, JSC, Municipal Enterprise “Gorelektroset” (Zarechny), Municipal Unitary Enterprise “Gorelektroset” (Kuznetsk), “Grid Company”, LLC, “Penzenskaya Electrotechnical Company”, LLC;

- in the Republic of Mordovia: “WATT” Technical Firm”, JSC, “Life Support Systems”, LLC, “Elektrotreplotset”, LLC;

- in the Chuvash Republic: “Utility Technology”, LLC, “Kanash Municipal Electric Power Grids”, JSC, Municipal Unitary Enterprise “Shumerlya Municipal Electric Power Grids”, “Gazpromenergo”, LLC.

The Issuer does not have risks associated with the possible changes in industrial commodity prices because the Issuer does not use commodities for its business.

Risks of changes in prices for materials, equipment and services used by the Issuer in its business are managed by conducting public tenders in accordance to the Regulation on Procedure for Carrying out Standardized Procurement of Goods, Works and Services for IDGC of Volga, JSC.

According to applicable laws, an entity that provides power transmission services operates on the natural monopoly market where the business competition does not exist. The activity of such company is subject to government regulation.

Charges (prices) for services provided by the Issuer are set by regulating authorities of respective entities of the Russian Federation (Regional Energy Commissions of Samara Region, Saratov Region, Ulyanovsk Region, Penza Region, Orenburg Region, Republic of Mordovia and Chuvash Republic) within the powers provided in the Federal Law on “Government Regulation of Charges for Power and Heat Energy in the Russian Federation” No. 41-FZ of April 14, 1995, according to which validity period of charges cannot be less than 12 months. Therefore, the risk of changes in charges is the lowest during one financial year.

There are no risks associated with changes in prices on foreign markets since the Issuer does not export its services.

### **2.5.2. Country and Regional Risks**

At the stage of formation of the report, the country is in the conditions of sufficient certainty as to its economic development: the task of transfer to an innovative model of economic development which has been put by the President and the Government is being performed. Besides, increase in energy efficiency and introduction of energy-saving technologies has been determined as one of priorities of further development.

On the other hand, the consequences of the global financial crisis have not been eliminated in full, due to which the risk of stagnation of the global economy still exists, in particular, with the USA and the European Union.

Further slowdown of global economic growth can't but affect Russian economy and power consumption, but, taking into consideration the government's policy of comprehensive support of real economy of the Russian Federation, the Company expects the lowest risks of decrease in power consumption in the mid-term.

In case of possible military conflicts, announcement of the state of emergency or strikes, the Issuer faces the risk of suspension of its financial and business activities and non-receipt of a part of income from its core business activity.

Risks associated with geographic conditions the regions including increased risk of natural calamities, possible disruption of transportation networks due to remoteness and/or inaccessibility do not substantially affect the Issuer because such risks are not likely to occur in the regions in which the Issuer operates.

Thus, the Issuer does not forecast a significant impact of country and regional risks on its ability to meet liabilities for securities.

### 2.5.3. Financial Risks

#### Risks associated with changes in interest rate

Taking into consideration a recent downward trend for interest rates under loan agreements concluded by the Issuer with credit and financial institutions and observed downward trend for the discount rate of the Central Bank of the Russian Federation, possible fluctuations of interest rate will not substantially affect business and financial activities of the Issuer since the debt portion in financing sources structure and the portion of outlays for debt servicing in the total amount of the Issuer's expenses are minor.

Based on the tenders in 2009, debt interest rate showed a downward trend. In Q1 of 2010, the Issuer reduced its total debt, thus, making the exposure to the risk of rising interest rate even lower.

#### Inflationary risk

Russian economy is characterized by high inflation rate. The table below shows inflation rate for the period from December 31, 1999 to March 31, 2010

<b>Period</b>	<b>Inflation for the period*</b>
Q1 of 2010	3.2%
2009	8.8%
2008	13.3%
2007	11.9%
2006	9.0%
2005	10.9%
2004	11.7%
2003	12.0%
2002	15.1%
2001	18.6%
2000	20.1%
1999	36.5%

*\*According to data from the Federal State Statistics Service of Russian Federation (Rosstat)*

The inflation rate is at 3.2% in the first quarter of 2010. In Q1 of 2009, the inflation rate was at 5.4%. There has been a gradual decline in inflation rate for the past recent years.

Overall, the impact of inflation-related factors on the Issuer's financial stability is not seen as significant in future.

Upper inflation rate for the companies that are subject to fixed prices for the current financial year is more than 9.1% because, according to the Article 269 of the Tax Code of the Russian Federation, "threshold amount of interest recognized as an expense shall be equal to the amount of discount rate of the Central Bank of the Russian Federation multiplied by 1.1".

The Issuer predicts a low possibility that inflation rate in Russia will reach the upper limit in the mid term as the Government and the Central Bank are set to implement anti-inflationary monetary policy.

Under this scenario, the risk of non-fulfillment of the Issuer's liabilities for securities in actual monetary form is low.

#### Risks associated with changes in foreign exchange rates

The Issuer performs its financial and business activities solely on the domestic market and does not use foreign currency in its payment settlements. In this connection, the Issuer's financial condition, liquidity and business performance are not exposed to risks of changes in exchange rate.

Exposure of performance indicators in financial reports prepared in accordance to Russian Accounting Standards to mentioned financial risks.

The following data in financial statements have the highest exposure to described financial risks:

- receivables - extension of turnover period;
- payables - extension of turnover period;
- cash - decrease in available cash;
- income from core business activity - decrease.

These risks can be minimized by using the following methods:

- development of the integrated financial policy of the Company;
- defining a debt policy of the Company, including raising credit facilities to eliminate cash deficiencies;
- building a budgetary policy and strict budget implementation;
- improvement of cash flow effectiveness by tightening financial controls;
- analysis of financial activities to find ways to increase profit and efficiency, save financial resources and improve financial stability of the Company;
- improvement of cost management by cutting down expenses;
- effective control and receivables;
- bringing claims or actions against entities with overdue receivables;
- laying down in-house financial regulations in the process of defining the development strategy and policies on different aspects of financial activity;
- maintaining corporate supervision of finance and business activity of the Issuer.

#### **2.5.4. Legal risks**

The Issuer is not engaged in exporting goods, works and services. Therefore, legal risks associated with the Issuer's business activities can occur only on the national market. Generally, risks associated with the Issuer's business activity are common for the majority of businesses operating within the territory of the Russian Federation.

Changes in laws on currency regulation and currency control cannot affect the Issuer's business activity because the Issuer's total amount of investments and major part of operating expenses are denominated in national currency and do not relate to transactions with foreign suppliers.

As with any other business, the Issuer is subject to tax regulations. In the Russian Federation these regulations currently include the Tax Code and a series of laws governing various taxes set by the federal and local authorities. Imposed taxes comprise value added tax, income tax, property tax, consolidated social tax and other deductions. Respective regulations often contain vague definitions or no definitions at all with minimal base. Moreover, various state ministries and agencies along their representatives often disagree on legal interpretation of different issues, creating uncertainty and ambiguity. Preparing and presenting of tax reports along with other components of regulation system are governed and supervised by various authorities which are legally entitled to imposed sizable fines, penalties and late fees. As a result, tax risks in Russia are higher than those in countries with more developed fiscal system.

The Issuer's management believes the Company fully adheres to tax laws related to its activities.

Risk of rising taxes is a key risk for the Issuer from this group.

Changes in regulations on customs control and duties cannot create any risks for the Issuer.

According to the laws of the Russian Federation, the Issuer's core business activity, power supply services, is not subject to obtaining a license.

The probability of changes in court practices related to the Issuer's activity (including licensing issues) are considered as low and cannot substantially affect the Issuer's activities since, pursuant to applicable laws, a leading case cannot become a source of law.

In case of changes in court practices regarding the Issuer's business, the Issuer intends to plan its financial and business activity with such changes in mind.

#### **2.5.5. Risks associated with the Issuer's business activity**

The Issuer is currently not involved in court proceedings which could cause risks related to the Issuer's activity.

According to the laws of the Russian Federation, the Issuer's core business activity, power supply services, is not subject to obtaining a license.

The Issuer is currently not liable for debts of third parties including branches and dependent companies.

As power supply provider, the Issuer has no competitors since this type of business activity represents a natural monopoly. There are no risks associated with losing customers who make up not less than 10 percent of the Issuer's overall revenue from sales of goods (works, services).

The Issuer's management believes that the risk of loan turndown is low.

Industrial risks are generally caused by external factors.

Procurement risk arises due to suppliers' fault as they violate dates, quantities or range of supplied materials.

### **III. Detailed information about the Issuer**

#### **3.1. History of establishment and development of the Issuer**

##### **3.1.1. Information on the Issuer's business name**

The Issuer's full business name: *"Interregional Distribution Grid Company of Volga", Joint-Stock Company*

The Issuer's abbreviated business name: *IDGC of Volga, JSC*

*Full or abbreviated business name of the Issuer (name if non-commercial organization) similar to a name of other legal person*

Names of such legal persons:

1. "Holding of Interregional Distribution Grid Companies", Joint-Stock Company (IDGC Holding, JSC);
2. "Interregional Distribution Grid Company of Center", Joint-Stock Company (IDGC of Center, JSC);

3. "Interregional Distribution Grid Company of North Caucasus", Joint-Stock Company (IDGC of North Caucasus, JSC);
4. "Interregional Distribution Grid Company of Northwest", Joint-Stock Company (IDGC of Northwest, JSC);
5. "Interregional Distribution Grid Company of Ural", Joint-Stock Company (IDGC of Ural, JSC);
6. "Interregional Distribution Grid Company of Siberia", Joint-Stock Company (IDGC of Siberia, JSC);
7. "Interregional Distribution Grid Company of South", Joint-Stock Company (IDGC of South, JSC);
8. "Interregional Distribution Grid Company of Center and Privolzhye", Joint-Stock Company (IDGC of Center and Privolzhye, JSC).

Notes necessary to avoid confusing the mentioned names:

To avoid confusion the Issuer's name with the names of above-mentioned interregional distribution grid companies, the Issuer advises focusing on geographical part of full and abbreviated names of such companies.

All previous names of the Issuer over its history.

*The Issuer did not change its name over its history*

### **3.1.2. Information on State Registration of the Issuer**

Primary state registration number: *1076450006280*

Registration date: *29.06. 2007*

Name of registering authority: *Interdistrict Tax Office of the Federal Tax Service of the Russian Federation No. 8 for Saratov Region*

### **3.1.3. Information on Establishing and Development of the Issuer**

Information on the duration of the Issuer from the state registration date as well as business termination date if the Issuer has been established for a certain period of time or to achieve a definite purpose:

The duration of the Issuer from the state registration date to the approval date of Quarterly Report is 33 (thirty three) full months. The Issuer has been established to operate for indefinite period of time.

Brief description of the Issuer's establishment history and development. The Issuer's purpose, mission (if any) and other information on the Issuer's activities necessary for making decisions on purchasing securities of the Issuer:

The Issuer is registered on June 29, 2007 based on the decision of the sole founder OAO RAO UES of Russia (the Ordinance of the Chairman of the Management Board of OAO RAO UES of Russia of June 22, 2007 No. 191p) in compliance with the Civil Code of the Russian Federation, the Federal Law "On Joint-Stock Companies" and other bylaws of the Russian Federation.

IDGC of Volga, JSC, is established to ensure effective management for the distribution grid complex of Volga in the course of implementing the investment stage of the reorganization of OAO RAO UES of Russia, which resulted in the subdivision of interregional distribution grid companies.

According to the structure of IDGC approved by the decision of the Board of Directors of OAO RAO UES of Russia (Minutes No. 250 of April 27, 2004), IDGC of Volga, JSC included the following distribution grid companies (DGC):

- Volzhskaya IDC, JSC;
- Mordovenergo, JSC;
- Penzaenergo, JSC;
- Orenburgenergo, JSC;
- Chuvashenergo, JSC.

The structure of IDGC of Volga, JSC was based on the principle of territorial proximity and comparability of asset value of DGCs belonging to the group. Service area of IDGC of Volga, JSC comprised service areas of DGCs belonging to its structure and consists of:

- Volzhskaya IDC, JSC (comprises 15 branch distribution grid companies) operated on the territory of the Samara, Saratov and Ulyanovsk Regions with the total area of 200.28 thousand square kilometers and the population of 4,559.8 thousand of people; 9,818 employees;

- Mordovenergo, JSC (comprises 3 branch distribution grid companies) operated on the territory of the Republic of Mordovia with the total area of 26.2 thousand square kilometers and the population of 876.1 thousand of people; 1,428 employees;

- Orenburgenergo, JSC (comprises 6 branch distribution grid companies) operated on the territory of the Orenburg Region with the total area of 124 thousand square kilometers and the population of 2,150.4 thousand of people; 3,401 employees;

- Penzaenergo, JSC (comprises 5 branch distribution grid companies) operated on the territory of the Penza Region with the total area of 43.3 thousand square kilometers and the population of 1,516 thousand of people; 2,497 employees;

- Chuvashenergo, JSC (comprises 3 branch distribution grid companies) operated on the territory of the Chuvash Republic with the total area of 18.3 thousand square kilometers and the population of 1,299.3 thousand of people; 1,475 employees;

Total mileage of transmission lines of IDGC of Volga, JSC is about 230,000 kilometers. Overall number of power substations serviced is more than 46,000 with the total power output of 56 billion kWh/year.

During the period from June 29, 2007 to March 31, 2008, IDGC of Volga, JSC, provided management to DGCs belonging to its group in accordance to the structure of IDGC. As part of creating a targeted management model for DGCs and in accordance with decisions of the general meetings of shareholders of DGCs, the agreements on delegation of powers of sole executive bodies of DGCs to IDGC of Volga, JSC, were concluded on October 1, 2007 on the terms and conditions approved by the Board of Directors of DGCs.

On December 3, 2007, the Federal Antimonopoly Service of Russia approved the reorganization of IDGC of Volga, JSC by affiliating with Volzhskaya IDC, JSC, Mordovenergo, JSC, Orenburgenergo, JSC, Penzaenergo, JSC, and Chuvashenergo, JSC. (Opinion No. АГ/23341)

On December 25, 2007, Unscheduled General Meeting of Shareholders of the Company made a decision (Minutes of December 25, 2007 No. 1795pr/8) on the reorganization of IDGC of Volga, JSC by affiliating with Volzhskaya IDC, JSC, Mordovenergo, JSC, Orenburgenergo, JSC, Penzaenergo, JSC, and Chuvashenergo, JSC and on the approval of the Agreement on Affiliation of DGCs to IDGC of Volga, JSC.

Unscheduled General Meeting of Shareholders of IDGC of Volga, JSC, also decided to increase the authorized capital of the Company through the placement of additional ordinary shares in the amount of 178,515,200,000 (one hundred and seventy eight billion, five hundred and fifteen million, two-hundred thousand) shares. The method of placement is conversion of affiliated Joint-Stock Companies into additional ordinary shares of IDGC of Volga, JSC in the procedure stipulated in the Agreement on Affiliation.

On April 1, 2008, the reorganization of “Interregional Distribution Grid Company of Volga”, Joint-Stock Company was completed by affiliating with five regional grid companies: Volzhskaya IDC, JSC, Mordovenergo, JSC, Orenburgenergo, JSC, Penzaenergo, JSC and

Chuvashenergo, JSC. As of April 1, 2008, DGCs affiliated to IDGC of Volga, JSC, ceased their activities as independent legal persons and began operating as branches: Mordovenergo, Orenburgenergo, Penzaenergo, Samara Distribution grids, Saratov Distribution grids, Ulyanovsk Distribution grids, Chuvashenergo.

IDGC of Volga, JSC is currently a consolidated managing company with headquarters in Saratov.

According to the Order of the Federal Tariff Service (FTS) No. 237-э of June 27, 2008, IDGC of Volga, JSC was entered into the register of natural monopolies in energy sector.

The mission of the Issuer is effective use of distribution grid assets of the Company, maintaining their reliability and raising investment resources for the benefit of each shareholder and the whole Company.

Strategic goals of the Issuer:

- ensuring system reliability and safety for maintaining sustainable operation of the distribution grid complex and safe operation of major and auxiliary equipment and facilities and prevention of health hazards;

- sustainable enhancing of power supply services, increasing their volume and ensuring environmental safety, which promotes the growth in the Company's value while improving the infrastructure for economic growth of the region;

- growing the value of the Company which implies a steady income growth, increased profitability, expanding and improving the Company's asset portfolio, which will ensure meeting the shareholders' interests, will make the Company and its projects attractive for investors as well as make it possible to evaluate the performance of management and how effective resources are used.

The reorganization of OAO RAO UES of Russia was completed on July 1, 2008. Based on the Reorganization Balance Sheet of OAO RAO UES of Russia, the shares of IDGC of Volga, JSC in the amount of 120,765,085,671 shares which makes 67.6260% of the authorized capital of IDGC of Volga, JSC were transferred to the ownership of IDGC Holding, JSC.

#### **3.1.4. Contact details**

Issuer's place of location: *42/44, Pervomayskaya Street, Saratov, 410031, the Russian Federation*

Location of permanent executive body of the Issuer: *42/44, Pervomayskaya Street, Saratov, 410031, the Russian Federation*

Mailing address: *42/44, Pervomayskaya Street, Saratov, 410031*

Telephone: *(8452) 30-26-59*

Fax: *(8452) 28-53-70, 28-54-10*

E-mail: *office@mrsk-volgi.ru*

### 3.1.6. Branches and Representative Offices of the Issuer

Branches and representative offices of the Issuer in accordance with its Charter (constituent documents):

1. Full business name: ***Samara Distribution grid, branch of IDGC of Volga, JSC***

Address: ***building 133, 106 B Novo-Sadovaya, Samara, 443068***

Date of opening: ***25.01.2008***

Head of a branch (representative office)

Full name: ***Romanov Vladimir Yevgenyevich***

Validity period the power of attorney: ***01.03.2011***

2. Full business name: ***Saratov Distribution Grids, branch of IDGC of Volga, JSC***

Address: ***42/44, Pervomayskaya Str., Saratov, 410031***

Date of opening: ***25.01.2008***

Head of a branch (representative office)

Full name: ***Kucherenko, Vladimir Ivanovich***

Validity period the power of attorney: ***01.03.2011***

3. Full business name: ***Ulyanovsk Distribution Grids, branch of IDGC of Volga, JSC***

Address: ***48, Efremova Str., Ulyanovsk, 432042***Date of opening: ***25.01.2008***

Head of a branch (representative office)

Full name: ***Frolov, Sergey Petrovich***

Validity period the power of attorney: ***01.03.2011***

4. Full business name: ***Mordovenergo, branch of IDGC of Volga, JSC***

Address: ***50 Lenina Avenue, Saransk, 430003***

Date of opening: ***25.01.2008***

Head of a branch (representative office)

Full name: ***Dralin, Mikhail Aleksandrovich***

Validity period the power of attorney: ***01.03.2011***

5. Full business name: ***Penzaenergo, branch of IDGC of Volga, JSC***

Address: ***1/2 Pushkina Str. / Gladkova Str., Penza, 440000***

Date of opening: ***25.01.2008***

Head of a branch (representative office)

Full name: ***Esyakov Sergey Yakovlevich***

Validity period the power of attorney: ***01.03.2011***

6. Full business name: ***Orenburgenergo, branch of IDGC of Volga, JSC***

Address: ***44 Marchala G.K. Zhukova Str., Orenburg, 460024***

Date of opening: ***25.01.2008***

Head of a branch (representative office)

Full name: ***Kazhayev Victor Fedorovich***

Validity period the power of attorney: ***01.03.2011***

7. Full business name: *Chuvashenergo, branch of IDGC of Volga, JSC*  
 Address: *4/4 I. Yakovleva Avenue, Cheboksary, the Chuvash Republic, 428000*  
 Date of opening: *25.01.2008*  
 Head of a branch (representative office)  
 Full name: *Ivanov Dmitry Gennadyevich*  
 Validity period the power of attorney: *01.03.2011*

### 3.2. Issuer's Core Business Activity

#### 3.2.1. Issuer's Industry

### **3.2.3. Materials, Goods (raw material) and suppliers of the Issuer**

For 2009

Suppliers who make up more than 10 percent of the overall supply of raw materials and supplies

Full business name: *Closed Joint-Stock Company “Company Mitep”*

Address: *107 A Chapayeva Str., Saratov Region, Saratov, 412840, Russia*

TIN: *6439067179*

PSRN: *1076439003750*

Portion in the total volume of supplies, %: *17.75*

Information on changes in basic materials and goods (raw material) prices for more than 10% within the relevant reporting period compared to the relevant reporting period of the previous year

***Basic materials and goods (raw material) prices did not changed for more than 10% within the relevant reporting period.***

A portion of import in the materials and goods supply, the forecast with respect to accessibility of import in the future and possible alternative sources of import

***Import portion in material and technical resources supply was 2.9% in 2009.***

For reporting period

Suppliers who make up more than 10 percent of the overall supply of raw materials and goods (raw material)

Full business name: *Joint-Stock Company “FPG Energocontract”*

Address: *9 Karmanitsky Alley, Moscow, 119002, Russia*

TIN: *7703268269*

PSRN: *2057748135938*

Portion in the total volume of supplies, %: *33.31*

Information on changes in basic material and goods (raw material) prices for more than 10% within the relevant reporting period compared to the relevant reporting period of the previous year

***Basic materials and goods (raw material) prices did not changed for more than 10% within the relevant reporting period.***

A portion of import in the materials and goods supply, the forecast with respect to accessibility of import in the future and possible alternative sources of import

***Import supplies are not used.***

### **3.2.4. Markets for the Issuer's goods (works, services)**

Major markets where the Issuer operates.

The Issuer is operating within the territory of 7 constituent entities of the Russian Federation: the Chuvash Republic ("Chuvashenergo" branch), the Republic of Mordovia ("Mordovenergo" branch), Orenburg Region ("Orenburgenergo" branch), Penza Region ("Penzaenergo" branch), Saratov Region ("Saratov Distribution Grids" branch), Samara Region ("Samara Distribution Grids" branch) and Ulyanovsk Region ("Ulyanovsk Distribution Grids" branch).

Core business activities include power supply services and services for technological connection of power receivers (power systems) of legal and natural persons to power grids.

Above-mentioned activities are performed within the territory of 7 constituent entities of the Russian Federation: the Chuvash Republic, the Republic of Mordovia, Orenburg Region, Penza Region, Saratov Region, Samara Region and Ulyanovsk Region. Major customers of the Issuer are distribution companies emerged as a result of the reorganization of RAO UES of Russia: "Samaraenergo", JSC, "Saratovenergo", JSC, "Ulyanovskenergo", JSC, "Mordovia Power Distribution Company", JSC, "Penzaenergosbyt", JSC, "Orenburgenergosbyt", JSC, "Chuvashia Power Distribution Company", JSC and the consumers operating on the wholesale and retail power market including the largest consumers "Mezhregionenergosbyt", JSC and "Rusenergosbyt", LLC. The number of the Issuer's customers is expected to grow rapidly due to changes in the power industry and on-going campaign promoting signing "direct" contracts on power supply services.

Factors that could adversely affect the distribution of the Issuer's goods (works, services) and the Issuer's expected actions to reduce such risks.

1. Decline in the volume of rendered services due to the decrease in power consumption by large manufacturers and because of the increase in the amount of technical (due to physical deterioration of power supply facilities) and commercial (due to non-metered power consumption, undermetering) losses of power. IDGC of Volga, JSC is using the Scheme on Losses Reduction and improving the power supply metering systems to reduce the amount of losses.
2. Non-fulfillment of contractual payment obligations before the Issuer by power distribution companies established as a result of the reorganization of RAO UES of Russia, due to crisis developments in the Russian economy. Major method to lower the risk of non-payment is signing direct contracts on power supply services with large industrial consumers and independent power distribution companies.
3. Physical deterioration of machinery and plant. In order to minimize this negative factor, IDGC of Volga, JSC is implementing investment programs to ensure the modernization of existing and introduction of new production facilities.
4. Lack of qualified professionals. The management of IDGC of Volga, JSC takes measures to implement relevant personnel training programs, ensures the participation of personnel in workshops and research-to-practice conferences as well as creates programs of sharing expertise between employees of regional distribution grid complexes.

### **3.2.5. Information on licenses held by the Issuer**

License Issuing Body: *Federal Environmental, Industrial and Nuclear Supervision Service*

Number: *VP-51-001493 (K)*

Type(s) of activity: *operating explosive industrial facilities*

Date of issue: *20.03.2009*

Expiry date: *20.03.2014*

Number: *CRT-01291-VE*

Type(s) of activity: *subsurface use permit*

Date of issue: *29.04.2009*

Expiry date: *28.04.2034*

### **3.2.6. The Issuer's joint-venture activity**

*The Issuer is not engaged in joint-ventures with other organizations*

#### **3.3. The Issuer's Outlook**

Strategic development of the Company is aimed at building innovative and efficient distribution grid complex that is able to meet the demands of economic growth and social modernization in the regions where the Company operates.

Major strategic goal of the Company can be achieved provided that the following strategic objectives are completed:

- increasing the effectiveness of distribution grid complex;
- modernization and building new infrastructure for distribution grid complex based on a large-scale innovative reconstruction;
- improving the investment attractiveness of the Company.

To achieve these objectives IDGC of Volga, JSC needs to focus on the following targets:

- to reduce the physical deterioration of distribution grid assets by 50% by 2020;
- to increase the operating effectiveness to the level of effectiveness of distribution grid companies in advanced economies by 2020;
- to create the reserve of power grids capacity that would outrun the demands of economic growth for 3 years by 2020;
- to ensure the profitability of investments in the distribution grid complex at the level of profitability of companies with comparable market risks in Russia;
- to raise funds needed to implement massive fixed assets renewal for higher reliability and quality of services and more efficient business activity of distribution grid companies;
- to introduce state-of-the-art technologies in the area of power distribution and transmission.

These goals require both additional major financial resources and high-quality power transmission improvements.

The Company drew up the principal directions in work:

- 1) to increase the reliability and quality of services and provide system safety by implementing repair and investment programs;
- 2) to improve effectiveness by implementing cost-cutting schemes, the main are power loss cutting measures;
- 3) to ensure business integration, power grids consolidation and bigger market presence;
- 4) to increase the investment attractiveness of the company through planned transition to RAB-regulation in 2011.

New charging policy would provide long-term regulation of charges to ensure return on investment for investors.

Changing to RAB has the following advantages:

- reliable economic and long-term budget planning in regions;
- ensuring good value for money in power transmission and supply services;
- release of funds from existing investment income to settle payables;
- attractiveness for investors built on transparent and guaranteed return on investment.

#### **3.4. The Issuer's participation in industrial, bank and financial groups, holdings, corporate groups and associations**

Name of the group, holding, corporate group or association: *The Issuer is a part of the group of companies "IDGC Holding", Joint-Stock Company (hereinafter referred to as Holding)*

Entry year: **2008**

Status (role) and functions of the Issuer in Holding.

Taking into consideration that Holding's stake in the authorized capital of the Issuer amounts to 67.626%, IDGC of Volga, JSC, according to the Articles 105, 106 of the Civil Code of the Russian Federation, is considered as branch and affiliated company to Holding.

The Issuer performs the following major functions within Holding:

- implementing the integrated power policy initiated by the Government of the Russian Federation and IDGC Holding, JSC at the regional level;
- ensuring the reliability of distribution grid complex;
- implementing long-term investment programs in power industry;
- preventing crisis developments in the power industry;
- creating benefits for customers and shareholders.

Information on plans for acquisition, replacement and retirement of fixed assets that make up 10 percent or more of the total value of fixed assets of the Issuer, as well as facts about impairment of fixed assets of the Issuer (describing the nature of impairment, the date of occurrence of impairment, the period of impairment and other conditions described at option of the Issuer);

***As of the end of the reporting period the Issuer does not have such plans.***

***Facts of impairment of the Issuer's fixed assets are not presented.***

## **IV. Information on financial and business activities of the Issuer**

### **IV. Information on Financial and Business Performance of the Issuer**

#### **4.1. Results of Financial and Business Activities of the Issuer**

##### **4.1.1. Profit and Losses**

Measurement unit: *thousands of rubles*

Item name	2007	2008	2009	2010, 3 months
Revenue	155,387	22,614,524	29,318,215	10,743,882

Gross income	48,628	2,712,601	2,190,732	1,377,294
Net Income (retained earnings (uncovered loss))	301	808,083	141,607	204,673
Return on equity, %	3.01	2.02	0.35	0.5
Return on assets, (%)	0.62	1.6	0.28	0.41
Net benefit-cost ratio, %	0.19	3.57	0.48	1.91
Return on products (sales), %	31.29	11.99	7.47	12.82
Total assets turnover	15.04	0.49	0.62	0.23
Uncovered loss at the balance sheet date	0	-999,504	-997,689	-997,689
Uncovered loss at the balance sheet date-total balance ration	0	0.02	0.02	0.02

Economic analysis of the Issuer profit earning / running at a loss based on the dynamics of the given indicators. Information on reason which, at the Issuer's management opinion, caused losses / profit specified in the financial statements as of the end of the reporting period compared to analogues period of the previous year (previous years) is also provided:

***Summarizing the business results as of the 1<sup>st</sup> quarter of 2010: the Company has loss-free net income of 204,673 thousand rubles. In 2009 loss-free net income was 141,607 thousand rubles.***

#### **4.1.2. Factors that Affected the Amount of Revenue from Sales of Goods, Products, Works, Services and the Amount of Profit (Loss) of the Issuer from Core Business Activity:**

***Information on this section is not given since the Issuer was registered as a legal person on 29.06.2007 and performed its business activities in the structure of the operating IDGC only 1 closed fiscal year (2009), all this does not allow evaluating the influence of these factors on revenue changes.***

#### **4.2. Liquidity of the Issuer, Sufficiency of Equity and Current Assets**

Measurement unit: *thousands of rubles*

Item name	2007	2008	2009	2010, 3 months
Own current assets	8,706	-4,686,532	-3,319,108	-2,458,432
Net fixed assets index	0.15	1.12	1.09	1.07
Current liquidity ratio	1.23	1.07	1.95	1.45
Quick liquidity ratio	0.48	0.8	1.58	1.13
Asset / equity ratio	0.21	0.81	0.82	0.83

Economic analysis of the Issuer liquidity and solvency based on economic analysis of the dynamics of the specified indexes:

Indicators describing the Issuer's liquidity in the 1<sup>st</sup> quarter of 2010:

Item name	1 <sup>st</sup> quarter of 2009	1 <sup>st</sup> quarter of 2010
Own current assets, thousands of rubles	-3,859,076	-2,458,432
Net fixed assets index	1.10	1.07
Current liquidity ratio	1.16	1.45

Quick liquidity ratio	0.91	1.13
Asset / equity ratio	0.81	0.83

*Note: the indicators are calculated in accordance with the methods recommended by the FFMS of Russia.*

Significant changes in the structure of assets in 2008 in comparison with 2007 are caused by the following factors. Until April 1, 2008 the Issuer's activities consisted in rendering services on maintenance of operation and organizational and technical development of the distribution network facility control system and services on exercise of powers of a sole executive body for Volzhskaya IDC, JSC, Orenburgenergo, JSC, Mordovenergo, JSC, Chuvashenergo, JSC, Penzaenergo, JSC. Fixed assets included non-productive fixed assets and in-process investments in design and survey work, research and development, and intangible assets. From April 1, 2008 IDGC of Volga, JSC operates as a unified operating company with branches Saratov Distribution Grids, Samara Distribution grids, Ulyanovsk Distribution grids, Orenburgenergo, Mordovenergo, Chuvashenergo, Penzaenergo, renders services on transportation and distribution of electric energy. It resulted in change in the structure of fixed assets (prevalence of productive fixed assets) and increase in their share in the structure of the Company's assets.

This structure of assets corresponds to the specific character of the Company's activities, since the main kind of the Company's activities is characterized by high capital capacity.

Based on the results of the 1-st quarter of 2010, the structure of assets corresponds to the industry characteristics of the issuer.

Liquidity ratios fall within the limits of the recommended values, which show active and rational use of monetary funds and rather high degree of solvency of the issuer.

Equity-assets ratio is an evaluation indicator of the Issuer's financial stability. The actual value of this indicator as of the end of the 1st quarter of 2010 reflects high degree of the Issuer's financial independence.

#### **4.3. Amount and Structure of Equity and Current Assets of the Issuer**

##### **4.3.1. Amount and Structure of Equity and Current Assets of the Issuer**

Measurement unit: *thousands of rubles*

Item name	2007	2008	2009	2010, 3 months
Authorized capital of the Issuer	10,000	17,857,780	17,857,780	17,857,780
Value of shares (ownership interest) of the Issuer bought out by the Issuer for resale (transfer)

- short-term liabilities – 65.6%;

Financing sources for the Issuer's current assets:

- non-debt sources;
- credits.

The issuer's policy on financing of current assets and factors, which may cause changes in the policy on financing of current assets, and estimation of probability of their occurrence:

Financing of current assets is performed on the basis of the principle of correspondence of the structure of financing sources by time of attraction thereof with the structure of the issuer's current assets. As of the end of the 1-st quarter of 2010, the long-term sources covered the long-term receivables and inventories. Financing of current assets with higher liquidity was performed out of long-term borrowed sources.

Changes in the policy of financing of current assets may arise in case of insufficiency of equity funds and long-term sources of financing of the issuer; the probability of occurrence of such factor is estimated as low.

#### **4.3.2. Financial Investments of the Issuer**

For 2009

The list of the Issuer financial investments representing 10 or more percent of all the investments as of the end of the reporting period

Investments in the issuable securities

Form of securities: *shares*

1. The Issuer's full business name: ***“Chuvash Autotransport Company”, Joint-Stock***

**Company**

The Issuer's abbreviated business name: **ChAK, JSC**

Issuer's place of location: **21 Promyshlennaya Str., Novocheboksarsk, Chuvash Republic, 429954, Russian Federation**

Date of state registration of the issue (issues)	Registration number	Registering Authority
18.06.2004	1-01-11795-E	Russian Federal Securities Commission for Privolzhsky Federal District

Number of securities owned by the Issuer: **90,859**

Total face value of the securities owned by the Issuer:

**90,859,000**

Currency: **RUR**

Total book value of the securities owned by the Issuer, RUR: **64,797,188.57**

**The General Meeting of Shareholders as of 30.06.2009 decided on non-payment of dividends on ordinary shares of the Company based on the Company's performance in 2008.**

2. The Issuer's full business name: **"Sanatorium-Preventorium Solnechniy", Joint-Stock Company**

The Issuer's abbreviated business name: **Solnechniy Sanatorium-Preventorium, JSC**

Issuer's place of location: **58 Turbinnaya Str., Orenburg, 460023**

Date of state registration of the issue (issues)	Registration number	Registering Authority
27.10.2004	1-01-02935-E	Samara Region branch of the Russian Federal Securities Commission

Number of securities owned by the Issuer: **425, 399**

Total face value of the securities owned by the Issuer: **42,539,900**

Currency: **RUR**

Total book value of the securities owned by the Issuer, RUR: **24,924,381.91**

**The General Meeting of Shareholders as of 30.06.2009 decided on non-payment of dividends on ordinary shares of the Company based on the Company's performance in 2008.**

3. The Issuer's full business name: **"Social Sphere-M", Joint-Stock Company**

The Issuer's abbreviated business name: **Social sphere-M, JSC**

Issuer's place of location: **50 Lenina Avenue, Saransk, Republic of Mordovia, 430003**

Date of state registration of the issue (issues)	Registration number	Registering Authority
04.12.2002	1-01-10802-E	Region branch of Russian Federal Securities Commission

Number of securities owned by the Issuer: **10,807,921**

Total face value of the securities owned by the Issuer: **10,807,921**

Currency: **RUR**

Total book value of the securities owned by the Issuer, RUR: **10,807,921**

***The General Meeting of Shareholders as of 30.06.2009 decided on non-payment of dividends on ordinary shares of the Company based on the Company's performance in 2008.***

Investments in the non-equity securities:

1. Form of securities: **note**

Full business name of a person obliged under non-equity securities: **Commercial Bank "Solidarnost", Joint-Stock Company**

Abbreviated business name of a person obliged under non-equity securities: **KB "Solidarnost", JSC**

Location of a person obliged under non-equity securities: **90, Kuibysheva Str., Samara, 443099, Russia**

Number of securities owned by the Issuer: **42**

Total face value of the securities owned by the Issuer: **297,000,000**

Currency: **RUR**

Maturity date: **no sooner than 01.02.2010**

Total book value of the securities owned by the Issuer: **297,000,000**

**0.1% per annum accrued from the date of the issue**

2. Form of securities: **note**

Full business name of a person obliged under non-equity securities: **"First United Bank" (Pervobank), Open Joint-Stock Company**

Abbreviated business name of a person obliged under non-equity securities: **First United Bank, OJSC**

Location of a person obliged under non-equity securities: **3a Yeroshevskogo Str., Samara, 443086, Russia**

Number of securities owned by the Issuer: **12**

Total face value of the securities owned by the Issuer: **239,480,000**

Currency: **RUR**

Maturity date: **no sooner than 01.02.2010**

Total book value of the securities owned by the Issuer: **239,480,000**

**0.1% per annum accrued from the date of the issue**

Other financial investments

***Other financial investments representing 10 or more percent of all the financial investments, no such investments***

Information on the amount of the potential losses related to the bankruptcy of the organizations (enterprises) invested by investment types:

***There is no sustain material reduction of the financial investments costs of the Issuer; potential losses related to the bankruptcy of enterprises invested by the Issuer are not seen.***

Information on losses is given in the Issuer's assessment of the financial investments reflected in the Issuer financial statements for the period from the reporting year until the end date of the last reporting quarter.

Accounting standards (rules) followed by the Issuer to perform calculations for this paragraph of the quarterly report:

Recording and recognition of data in the financial statements related to investments is made in compliance with the following regulatory documents:

- Federal Law "On Accounting" of November 21, 1996 No. 129-FZ.
- Accounting standard on "Financial Statements of Organizations" PBU 4/99 approved by the Order of the Ministry of Finance of the Russian Federation of July 6, 1999 No. 43n.
- Accounting standard on "Expenses of Organization" PBU 10/99 approved by the Order of the Ministry of Finance of the Russian Federation of May 6, 1999 No. 33n.
- Accounting standard on "Accounting Policy of Organization" PBU 1/2008 approved by the Order of the Ministry of Finance of the Russian Federation of October 06, 2008 No. 106n.
- Accounting standard on "Income of Organization" PBU 9/99 approved by the Order of the Ministry of Finance of the Russian Federation of May 6, 1999 No. 32n.
- Accounting standard on "Accounting for Financial Investments" PBU 19/02" approved by the Order of the Ministry of Finance of the Russian Federation of December 10, 2002 No. 126n.

As of the end date of reporting quarter

#### **4.3.3. Intangible Assets**

For 2009

Measurement unit: *thousands of rubles*

Group of intangible assets	Acquisition cost (replacement cost)	Accumulated depreciation
Patents, licenses, trade marks etc.	340	44
Other intangible assets	160,395	34,831
Total	160,735	34,875

Accounting standards (rules) followed by the Issuer to disclose information about intangible assets:

- PBU 4/99 "Financial Statements of Organizations" (approved by the Order of the Ministry of Finance of the Russian Federation of July 6, 1999 No. 43n);
- Accounting standard on "Accounting for Intangible Assets" PBU 14/2007 (approved by the Order of the Ministry of Finance of the Russian Federation of December 27, 2007 No. 153n).

As of the end date of reporting quarter

Measurement unit: *thousands of rubles*

Group of intangible assets	Acquisition cost (replacement cost)	Accumulated depreciation
Patents, licenses, trade marks etc.	340	54
Other intangible assets	160,395	40,089
Total	160,735	40,143

Accounting standards (rules) followed by the Issuer to disclose information about intangible assets:

- PBU 4/99 "Financial Statements of Organizations" (approved by the Order of the Ministry of Finance of the Russian Federation of July 6, 1999 No. 43n);

- Accounting standard on "Accounting for Intangible Assets" PBU 14/2007 (approved by the Order of the Ministry of Finance of the Russian Federation of December 27, 2007 No. 153n).

#### **4.4. Information on the Issuer's policy and expenses for R&D in regard to licenses and patents, innovations and research**

##### 1. The Issuer's R&D policy:

1.1. December 15 through December 16, 2009, Cheboksary hosted a meeting of R&D Council of IDGC of Volga, JSC, discussing the issues and deciding on the following:

- to introduce and operate microprocessor based relay protection devices and ECA and to ensure electromagnetic compatibility when installing microprocessor based units on power substations;

- to monitor advanced arc fault protection systems.

1.2. IDGC of Volga, JSC, joined the workshop that lasted from November 11 to November 13, 2009, "Power Engineering: Issues of Development", the international specialized exhibition "Power Industry. Electrical Engineering and Industrial Electronics 2009". Representatives of IDGC of Volga, JSC also took part in the exhibition "Russian Power Grids" held November 30 through December 5, 2009, in Moscow, and joined the workshop "Testing and Diagnostic of Electrical Lines" held December 5 through December 10, 2009 in Baunach, Germany.

1.3. In the course of new construction, modernization and reconstruction, running the electrical equipment or the use of materials, morally and physically deteriorated equipment is replaced with new facilities to ensure reliability of equipment at normal and emergency operating conditions and the high level of safety:

- VBES-35 10 kV vacuum circuit breakers;

- VGT-110 110 kV SF6 circuit breakers with TRG-110 current transformer;

- OPN-110 110 kV high-voltage surge arresters;

- SIP-2 0.4 kV self-supporting insulated cables;

- SIP-3 10 kV self-supporting insulated cables;

- 35-110 kV cross linked polyethylene cables;

- Sirius-2 microprocessor based units;

- Sirius-RNM 6-110 kV microprocessor based voltage regulator transformers.

2. The Issuer does not own items of intellectual property (patents for invention, useful model or industrial sample, trademarks or service marks).

3. The Issuer hasn't created or ensured the legal protection of items of intellectual property over the period of its existence. Expenses for legal protection of items of intellectual property or results of intellectual activity have not been incurred by the Issuer.

The Issuer has obtained the following certificates for trademarks (service marks) registered on the Public Register of Trademarks and Service Marks.

April 29, 2008:

- trademark certificate No. 349047 under inquiry No. 2007730029;

- trademark certificate No. 349048 under inquiry No. 2007730031;

- trademark certificate No. 349049 under inquiry No. 2007730033.

December 3, 2008:

– trademark certificate No. 366456 under inquiry No. 2007730032.

December 5, 2008:

- trademark certificate No. 366537 under inquiry No. 2007730028.

#### **4.5. Analysis of Tendencies in the Issuer's Core Business Activity**

The following information is based on opinions of the Issuer's management bodies.

Outline of development trends in the industry where the Issuer performs its main business activity:

Historically, the power industry is key for the Russian economy. As part of the energy sector, the industry influences all industries and serves as an indicator of economic stability in the country.

The development of power industry in the period from 2000 to 2008 was primarily characterized by turnaround of negative power practices formed in mid 90s and the growth in power consumption emerged in 1999. Rising industrial production was accompanied by the increase in solvency of manufacturers - consumers of power and heat energy, which allowed to solve the problem of non-payment in the power industry.

The country's economic growth along with structural reforms that go along with this growth sets a new goal for the power industry. At this new stage, the power industry is challenged to provide the infrastructure that would enable the creation of new or expansion of existing industrial facilities at locations required by the nature of emerging manufacturing enterprises. The achievement of this goal would require accelerated development of grid and equipment components of the power industry and its increased flexibility.

Major development trends in the industry in the period from 2002 to 2005:

- setting up infrastructure wholesale companies: Transmission System Operator SO-CDA UES, JSC; UNEG Management Company FGC UES, JSC; Trading System Administrator - NP ATS;

- arrangement and commencement of the reorganization of AO-energoes, establishing power generating, sales, grid (distribution and dispatch) companies;

- opening of the free wholesale power market “5-15”;

- opening of the free wholesale electrical capacity market.

It is important to point out negative effects caused by global financial and economic crisis. Positive economic growth developed in the period from 2000 to the first half of 2008 was followed by a slowdown in the fourth quarter in 2008 and then the decline in power consumption by large metal manufacturers and engineering manufactures.

Negative effects lingered throughout 2009. For instance, the amount power supply to the grids of IDGC of Volga dropped 8.2% for 12 months of 2009 compared to the same period in 2008.

In the 1<sup>st</sup> quarter of 2010 the growth of the power transmission and consumption was seen compared to the 1<sup>st</sup> quarter of 2009; it is explained by 2 main reasons:

- subnormal temperature in January—March 2010;
- growth of power consumption by major industrial enterprises in connection with the general improvement of the economic climate in Russia.

Changes in regulations in the course of power industry reorganization:

1. As of January 1, 2006, power generating companies belonging to OAO RAO UES of Russia, emerged a result of reorganization of AO-energoes and FGC UES, JSC, entered the wholesale power market. This led to the revision of the information exchange practices with market players and tightening of requirements on power metering at DGCs;

2. Approval and enactment of the Transitional Rules for Retail and Wholesale Power Market as of September 1, 2006 (the Ordinance of the Government of the Russian Federation No. 529 and 530 of August 31, 2006). In addition to the transformation of the existing structure of the wholesale power market and clear standardization of the functions of each entity operating on the wholesale and retail power market, these regulations changed the payment procedures for services provided by DGCs and their relationships with customers.

3. Changes in the charging policy for services provided by FGC UES, JSC as of July 1, 2006. Introduction of new rules for the pricing policy of UNEG (changing to announced capacity based charges) allowed DGCs to more precisely plan for the volume and cost of services provided by FGC UES, JSC from 2006 and later.

4. Changes in the charging policy for services provided by distribution grid companies as of January 1, 2008 that introduced double-rate charges for the transmission of power including the rate for grid maintenance (per announced capacity), and the rate for covering losses (per actual amount of transmitted power).

5. Setting equal charges for power transmission services are provided in requirements laid down by the FTS and the Government of the Russian Federation. Apart from setting an equal charge for power transmission services in regions, this relationship model requires DGCs to conclude contracts on power transmission to end users with every power grid company operating in their region.

Factors having significant effect on the condition of the industry: reorganization pace, availability of regulatory base in particular; solvent demand from customers; technical condition of plant and machinery.

Overall assessment of the Issuer's performance in the industry

IDGC of Volga, JSC successfully meets its objectives of nationwide importance to provide reliable and steady power supply to customers from every industry in the economy.

Power supply industry was hurt by global financial and economic crisis. Developed during the 1-3 quarters of 2008 a positive growth in productive supply due to booming local markets was followed by a slowdown in the 4<sup>th</sup> quarter of 2008 and then the decline in the amount of power supply caused by shrinking output by large manufacturers.

For the first 9 months of 2009, power consumption in the service area of IDGC of Volga, JSC, was an average 89% against the actual amount in 2008.

In the 4<sup>th</sup> quarter of 2009, the amount power supply to the grids of IDGC of Volga, JSC, reached the level of the “crisis” 4<sup>th</sup> quarter of 2008.

In the 1<sup>st</sup> quarter of 2010 the trend of growth of the volume of the power transmission services and consumption was seen compared to the 1<sup>st</sup> quarter of 2009.

The volume of power transmission services provided by IDGC of Volga, JSC, (net power output within the limits of balance participation of IDGC of Volga, JSC is given for the purposes of the data comparability) in the 1<sup>st</sup> quarter of 2010 was 15,115 million kWh, which is 2.8% higher than targeted value and 6.5% higher than that for the same period in 2009.

Revenue from power transmission services in the 1<sup>st</sup> quarter of 2010 amounted to 10,577.64 million rubles (w/o VAT), which is 310.2 million rubles (+3%) higher of targeted amount.

Power losses amounted to 1,574 million kWh, which is 0.15% higher than targeted value, provided that the relative losses are 9.43% compared to the targeted loss rate 9.65%. Expenses to cover the losses amounted to 3,427.8 million rubles (w/o VAT); the surplus as to the estimated value was 32.6 million rubles (+0.96%), which is caused by higher uncontrolled price.

In general, IDGC of Volga, JSC assesses the results of its activities as relevant to the current trends in the sector in which it carries out its activities.

#### **4.5.1. Analysis of Factors and Conditions Affecting the Issuer's Activity**

Factors and conditions affecting the Issuer's activity and the results of such activity, and outlook for the duration of mentioned factors and conditions:

Power industry reorganization and extensive government regulation of the industry (including charging policy) represent the major factors affecting the power industry and the Issuer's activity.

Factors and conditions that could substantially affect the activity of companies managed by the Issuer include:

- overstatement of announced (contractual) capacity factored in when calculating charges for power transmission compared to the value in a forecast balance of the FTS RF; possible non-payment of customers for contractual capacity factored in when calculating charges;
- decrease in actual power consumption compared to the values budgeted when calculating charges for power transmission services;
- FGC UES, JSC refusal to perform the contracts of use of the components of power grid industry (last mile agreements) from January 1, 2011;
- setting limiting charges for power transmission by the Federal Tariff Service of Russia which do not fully reflect financial expenditures of the Company needed to ensure reliable and steady operation and its further growth;
- increasing emergency risk due to physical deterioration of machinery and plant. Physical deterioration and obsolescence of plant and machinery, increased requirements on reliability and safety of operation, higher risk of severe accidents related to the destruction of power supply facilities, all call for emphasis on the reliability and safety issues.

These factors are components of the overall development trend in the Issuer's market. In the Issuer's opinion, they could make a lasting effect on the Issuer's activity in the mid-term.

Measures which are being undertaken by the Issuer and measures which the Issuer plans to undertake in future in order to minimize the negative impact of factors and conditions affecting the Issuer's activity:

In the Issuer's opinion, the following are the most effective ways to reduce the negative impact of factors and conditions affecting the Company's activity at present and in near future:

- cooperation with customers on formation of the scheduled balances of power applied to charges calculation which take into account the economic interests of the grid company and the

participants of the sector of power supply;

- reaching an economically viable level of charges for energy sources while striking a balance of economic interests between energy companies and power consumers;
- providing investment-friendly environment in the power industry;
- team working on the discussion of development plan for constituent entities of the Russian Federation to ensure more accurate and precise planning for power industry development;
- increasing the effectiveness of local power industry;
- creating an integrated power grid environment in the regions to increase the reliability of power supply;
- reaching an economically viable level of charges for energy sources while striking a balance of economic interests between energy companies and power consumers.

Substantial events / factors which may have a substantially negative impact on the Issuer's achievement of the same or better results in future compared with those achieved for the last reporting period. Probability of occurrence of such events / factors:

- introduction of limiting charges by the Federal Tariff Service of Russia which do not fully reflect financial expenditures of the Company needed to ensure reliable and steady operation and its further growth;
- continuation of financial and economic crisis in the global and Russian economy for an indefinite period;
- progress of the Russian power industry reorganization;
- increase in prices for component parts, materials and equipment.

The probability of occurrence of these factors is considered by the Issuer as high. These factors are beyond the Issuer's control.

Substantial events / factors which may improve the Issuer's performance, the probability of their occurrence and their duration:

- implementation of long-term projects, attracting long-term investments at minimal cost;
- effective allocation of risks among all participating parties;
- creation of incentives to increase company's effectiveness by cutting down costs and investing in advanced technologies;
- ensuring fair price for power supply services consistent with the reliability and quality of services;
- steep improvement of payment discipline of the consumers of power;
- adjusting charges for power supply to economically viable levels to ensure both proper maintenance of fixed assets and investment potential of the industry.

The growth of profit from providing power supply services can be primarily achieved by cutting down costs, minimization of losses through modernization of worn equipment and increasing the volume of services through expansion of facilities.

Actions undertaken by the Issuer and actions which the Issuer plans to undertake in future to use these factors and conditions effectively:

In order to use above mentioned factors and conditions effectively, the Issuer is undertaking and plans to undertake in future the following actions:

- ensuring a steady growth of effectiveness of all organizational components of the Issuer;
- implementing active investment policy aimed at the modernization of deteriorated electrical equipment, developing the power industry and commissioning new facilities.

Measures which are being undertaken by the Issuer and measures which the Issuer plans to undertake in future in order to minimize the negative impact of factors and conditions affecting the

Issuer's activity:

In order to minimize the negative impact of factors and conditions affecting the Issuer's activity, the Issuer is undertaking and plans to undertake in future the following actions:

- modernization of fixed assets;
- prevention of non-payment by power consumers;
- tightening financial controls and reducing costs.

#### **4.5.2. The Issuer's Competitors**

Core business activity of the Issuer is providing services of power supply and technological connection to power networks. The Issuer does not have competitors in a very real sense of this term since power supply services are defined as a monopoly activity, according to paragraph 1 of Article 4 of the Federal Law on "Natural Monopolies" of August 17, 1995, No. 147-FZ.

Power grid sector of the power industry is characterized by the following.

There are currently three levels of power grid companies which have been formed on the technological and territory basis:

- Level 1 - Federal power grid company, operating 220 kV grids and above. This company operates across the Russian Federation and has branches in all regions of RF;
- Level 2 - Regional grid companies, emerged as a result of AO-energoes reorganization. These companies operate 110-0.4 kV grids and provide power transmission services within the territory of the constituent entity of the Russian Federation where they are based.
- Level 3 - local power grid companies, operating 0.4-10 kV grids. These companies basically emerged from wholesale power companies set up as municipal enterprises to service customers within a single municipality.

IDGC of Volga, JSC, falls into the Level 2 - Regional Power Grid Company.

In the current environment, there is almost no competition among power grid companies operating within the area of responsibility of IDGC of Volga, JSC. Competition among distribution grid companies can be possible only if several companies operate the grids of the same voltage level within their service area. Regional and local power grid companies are currently operating 0.4-10 kV grids, but the competition in this sector of power transmission market is almost absent as this level of voltage basically serves households and government-financed organizations who, as power consumers, do not generate enough revenue for the power grid companies to cover their power transmission expenses.

## **V. Detailed information on members of the Issuer's Management Bodies, the Issuer's Financial and Business Supervisory Bodies and brief information on the Issuer's personnel (employees)**

### **5.1. Information on the structure and responsibilities of the Issuer's Management Bodies**

Detailed description of the structure of the Issuer's Management Bodies as stipulated in the Charter (Constituent Documents) of the Issuer.

Management Bodies of the Company include:

- General Shareholders' Meeting;
- Board of Directors;
- Management Board;
- General Director.

According to the paragraph 10.2. of the Article 10 of the Charter of IDGC of Volga, JSC, General Shareholders' Meeting is responsible for the following matters:

#### **8.1.4. Information on the procedure for convening and holding the meeting (session) of the top Management Body of the Issuer**

Top Management Body of the Issuer: ***According to the paragraph 10.1 of the Article 10 of the Charter of the IDGC of Volga, JSC, Top Management Body of the Issuer is represented by General Shareholders' Meeting.***

Procedure for notification of shareholders (stockholders) on holding the meeting (session) of the top Management Body of the Issuer:

According to the paragraph 11.5 of the Article 11 and the paragraph 12.4 of the Article 12 of the Charter of the Issuer, the notification on holding the General Shareholders' Meeting shall be published by the Company in the Rossiiskaya Gazeta as well on the Company's website not later than 30 (thirty) days prior to the meeting held in the form of attendance by the shareholders, or not later than 30 (thirty) days prior to the end date for casting ballots if the General Shareholders' Meeting is held by absentee voting.

Persons (bodies) who have the right to convene (demand convening) an extraordinary meeting (session) of the top Management Body of the Issuer and the procedure for forwarding (issuing) such demands:

Pursuant to the paragraph 14.2 of the Article 14 of the Charter of the Issuer, the Board of Directors of the Company at its own initiative, the Audit Commission of the Company, the Auditor of the Company and shareholder (shareholders) who holds no less than 10 (ten) percent of voting shares of the Company at the date of issuing the demand are entitled to convene (demand convening) an Extraordinary General Shareholders' Meeting. According to the paragraph 14.4 of the Article 14 of the Charter of the Issuer, the demand for convening the Extraordinary General Shareholders' Meeting of the Company shall contain articulated matters to be included on the agenda of the meeting. Person (persons) demanding for convening the Extraordinary General Shareholders' Meeting of the Company is entitled to submit a proposal for decision by the General Shareholders' Meeting and a suggestion on the form of holding of the General Shareholders' Meeting. The demand for convening the Extraordinary General Shareholders' Meeting containing the suggestion on nominating candidates shall provide name and the data from the identity document (series and (or) the number of document, date and place of issue and the name of issuing body) of each nominated candidate and the name of a body for which the candidate is nominated. According to the paragraph 14.5 of the Article 14 of the Charter of the Issuer, if the demand for convening the Extraordinary General Shareholders' Meeting of the Company is initiated by shareholder (shareholders), such demand shall contain the name (institutional name) of shareholder (shareholders) demanding for the convention of the meeting stating the number, class (category) of the Company's shares held by these shareholders. The demand for convening the Extraordinary General Shareholders' Meeting of the Company shall be signed by the person (persons) demanding for the convention of the Extraordinary General Shareholders' Meeting of the Company.

Procedure for setting the date of meeting (session) of the top Management Body of the Issuer:

According to the paragraph 11.1 of the Article 11 of the Charter of the Issuer, the Annual General Shareholders' Meeting of the Company shall be held within the period of not earlier than two months prior to and not later than six months after the end of financial year. According to the paragraph 14.3 of the Article 14 of the Charter of the Issuer, the convention of the Extraordinary General Shareholders' Meeting upon the demand of the Audit Commission of the Company, the Auditor of the Company and shareholder (shareholders) who holds no less than 10 (ten) percent of voting shares of the Company shall be made by the Board of Directors of the Company. Such General Shareholders' Meeting shall be held within 40 (forty) days from the date of demand for convening the Extraordinary General Shareholders' Meeting, excluding the case when the agenda of the Extraordinary General Shareholders' Meeting contains a matter on election of the members of the Board of Directors of the Company. If the agenda of the Extraordinary General Shareholders' Meeting contains a matter on election of the members of the Board of Directors of the Company, the General Shareholders' Meeting shall be held within 90 (ninety) days from the date of issuing the demand for convening the Extraordinary General Shareholders' Meeting of the Company.

Persons who have the right to put forward suggestions for the agenda of the meeting (session) of the top Management Body of the Issuer and the procedure for putting forward such suggestions:

According to the paragraph 13.1 of the Article 13 of the Charter of the Issuer, shareholder (shareholders) of the Company who holds a total of at least 2 (two) percent of voting shares of the Company is entitled to put forward suggestions for the agenda of the Annual General Shareholders' Meeting and to nominate candidates for the Board of Directors and the Audit Commission of the Company in the number not exceeding the number of members of the bodies in question within the period of not later than 60 (sixty) days from the end date of financial year. According to the paragraph 13.2 of the Article 13 of the Charter of the Issuer, the suggestion on putting forward matters for the agenda of General Shareholders' Meeting and suggestions on nomination of candidates shall be presented in writing stating the name (institutional name) of shareholders (shareholder) initiating such suggestions, the amount and class (category) of shares owned by them and shall be signed by shareholders (shareholder). According to the paragraph 13.3 of the Article 13 of the Charter of the Issuer, the suggestion on putting forward matters for the agenda of General Shareholders' Meeting shall contain the written statement of each suggested matter and the suggestion on nominating candidates shall provide a name and the data from the identity document (series and (or) the number of document, date and place of issue and the name of issuing body) of each nominated candidate and the name of a body for which the candidate is nominated.

Persons who are entitled to access the information (materials) provided for the arrangement and holding the meeting (session) of the top Management Body of the Issuer and the procedure for accessing such information (materials):

According to the paragraph 11.7 of the Article 11 of the Charter of the Issuer, the information (materials) on matters of the agenda of the General Shareholders' Meeting shall be made available to the persons entitled to participate in the General Shareholders' Meeting at the office of Executive Body of the Company or other places at addresses stated in the notice on holding the General Shareholders' Meeting within the period of 20 (twenty) days, or, in case of holding the General Shareholders' Meeting to discuss the matter on reorganization of the Company, within 30 (thirty) days prior to the holding the General Shareholders' Meeting. Mentioned information (materials) shall be available to persons participating in the General Shareholders' Meeting during the holding of the Meeting. The procedure for providing information (materials) on the matters of agenda of the General Shareholders' Meeting to the persons entitled to participate in the General Shareholders' Meeting and the scope of such information (materials) are determined by the decision of the Board of Directors of the Company.

Procedure for announcement (communication to shareholders (stockholders) of the Issuer) of decisions made by the top Management Body of the Issuer and voting results.

According to the paragraph 11.13 of the Article 11 of the Charter of the Issuer, voting results and decisions made by the General Shareholders' Meeting of the Company can be announced at the General Shareholders' Meeting of the Company.

If voting results and decisions made by the General Shareholders' Meeting of the Company has not been announced at the General Shareholders' Meeting of the Company, the decisions made by the General Shareholders' Meeting of the Company and voting results in the form of voting results report (decisions made by the General Shareholders' Meeting held by absentee voting as well as voting results in the form of voting results report) shall be communicated to the persons entitled to participate in the General Shareholders' Meeting via publication in the Rossiiskaya Gazeta and on the Company's website not later than 10 (ten) days from the minutes on voting results.

#### **8.8. Description of the Procedure for the Taxation of Income from Placed and Placing Issue Securities of the Issuer**

Taxation of income from placed and placing issue securities of the Issuer is regulated by the Tax Code of the Russian Federation (hereinafter referred to as TC) and other regulations of the Russian Federation adopted in compliance with the Tax Code of the Russian Federation.

#### TAX RATES

Type of Income	Legal Persons		Natural Persons	
	Residents	Non-residents	Residents	Non-residents
Income from sale of securities	% (out of which: Federal budget: -2%; budget of constituent entity: -18%)	%	%	%
Income from dividends	%	%	%	%

#### PROCEDURE FOR TAXATION FOR NATURAL PERSONS

When calculating the tax base for income from transactions with securities, the tax base includes income received from the following transactions:

- 1) with securities traded in the organized stock market;
- 2) with securities not traded in the organized stock market;

Securities shall be deemed realized (purchased) in the event of termination of termination of taxpayer's obligations to transfer (accept) the relevant securities as set-off counter claims of the same kind, including without limitation when exercising clearing in accordance with the law of the Russian Federation.

The claims with respect to assignment of the rights of the equal volume attached to securities of the same issuer, of the same type, same category (class) or securities of the same mutual investment fund (for investment units in the investment mutual funds) shall be deemed claims of the same kind.

In this case the set-off of the counter claims of the same kind shall, in accordance with the law of the Russian Federation, be confirmed by documents on termination of an obligation to transfer (accept) securities, including without limitation clearing organization's reports, report of persons performing brokerage activities, or managers, which provide a taxpayer with the clearing, brokerage services or perform trust management in favor of a taxpayer in accordance with the law of the Russian Federation.

An income from purchase and sale of securities earned in the tax period shall be deemed incomes from transactions with securities.

An income in the form of interest (coupons, a discount) earned from securities in the tax period shall be included in income from the transactions with securities unless otherwise provided in Article 214.1 of the RF TC.

An income from transactions with the securities both traded and not traded in the organized stock market shall be included in the beneficiary income from transactions with securities both traded and not traded in the organized stock market.

Costs related to securities purchase, realization, holding or redemption, documented and actually incurred by a taxpayer shall be deemed costs of transactions with the securities.

Mentioned costs include:

1) amounts paid to the securities issuer (managing company of the mutual investment fund in payment for placed securities and amounts paid under the securities contract, including without limitation the coupon amounts;

2) amounts of the paid variable margin and (or) premiums under contracts, as well as other periodic or fixed payments provided for by terms of the term transaction financial instruments;

3) payment for services provided by securities market professionals, exchange intermediaries and clearing centers;

4) premium paid to the managing company of the mutual investment fund in the event of purchase of an investment unit in the investment mutual fund determined in accordance with the RF laws on investments funds.

5) discount paid to the managing company of the mutual investment fund in the event of redemption of an investment unit in the investment mutual fund determined in accordance with the RF laws on investments funds.

6) expenses subject to compensation to securities market professionals, the managing company which administers the property trust constituting the investment mutual fund;

7) exchange charge (commission);

8) payment for services to persons who are responsible for maintaining the register;

9) tax payable by a taxpayer in the course of the securities receipt by way of succession;

10) tax payable by a taxpayer in case of receipt of securities, investment units by way of gift in accordance with Clause 18.1 of Article 217 of the Code;

11) interest amounts received by a taxpayer under loans and borrowings obtained from transactions with securities (including interests under loans and borrowings for making margin transactions), within the amounts calculated based on the refinancing rate of the Central Bank of the Russian Federation effective as of the interest payment date increased in 1.1 times for loans and borrowings in rubles and based on 9 percent for loans and borrowing in foreign currency;

12) other expenses directly related to transactions with securities, as well as expenses related to services rendered by securities market professionals, managing companies, which administer the property trust constituting the investment mutual fund, within the framework of their professional activities.

A financial result in connection with the securities transactions shall be determined as an income from transactions after deduction of the relevant expenses.

In this case the expenses which may not be directly allocated to reduction of the income from transactions with securities both traded and not traded in the organized stock market or reduction of the relevant income type shall be allocated in proportion to a portion of each separate income type.

A financial result shall be determined for each separate transaction and for each population of transactions, i.e. for securities traded in the organized stock market and for securities not traded in the organized stock market.

A financial result is determined upon termination of a tax period. A negative financial result received in a specific tax period from specific transactions with securities reduces the financial result received in the tax period on an aggregate basis of the relevant transactions. In this case the negative financial results for transactions with securities traded in the organized stock market which diminish the financial result for operations with the securities traded in the organized stock market shall be determined subject to fluctuation limits of the securities market value.

A negative financial result obtained in a tax period for separate transactions with securities not traded in the organized stock market, which at the time of their purchase were securities traded in the organized stock market, may diminish the financial result obtained in a tax period for transactions with the securities traded in the organized stock market.

A negative financial result for each transactions population shall be deemed as loss. Losses from transactions with securities shall be recorded in accordance with the procedure provided for by Article 214.1 and Article 220.1 of the Tax Code.

The tax base for each transactions population shall be determined separately.

Taxpayers who received losses from transactions with the securities traded in the organized stock market in the previous tax period are entitled to reduce their tax base for transactions with the securities traded in the organized stock market accordingly in the relevant tax period for the total amount of the obtained loss or for a part of this sum (carry forward mentioned losses).

In this case the tax base of the on-going tax period shall be determined subject to provisions provided for by this Article and Article 220.1 of the Tax Code.

The losses from transactions with the securities traded in the organized stock market which were carried forward reduce the tax base for such transactions of the relevant tax periods.

Carrying forward losses from transactions with the securities not traded in the organized stock market is not allowed. A taxpayer is entitled to carry forward the losses within 10 years following the year than such losses were incurred.

A taxpayer is entitled to carry forward to the on-going tax period the losses incurred in the previous tax periods. In this case the loss carried forward to the nearest subsequent year may be fully or partially carried forward to the next year from the subsequent nine years subject to provisions of this Clause.

Should losses be incurred by a taxpayer in more than one tax periods such losses shall be carry forward in the order in which such losses were incurred.

A taxpayer shall keep the documents confirming the amount of the incurred losses within the entire period than such taxpayer reduces his / her tax base of the current tax period for the amounts of the previously incurred losses.

Losses shall be recorded in accordance with Article 220.1 of the Code at the time of a declaration submission to a tax authority at the end of a tax period.

Tax base for transactions with securities and transactions with forward contracts and futures is calculated at the end of tax period.

Calculation, deduction and payment of a tax amount are made by a tax agent at the end of tax period or prior to the end of subsequent tax period.

To determine the tax base the tax agent shall calculate the financial result in accordance with

Clause 12 of Article 214.1 of the Tax Code for the taxpayer who receives money or the revenue in kind as of the date of the income payment. In this case if the amount payable to the taxpayer does not exceed the calculated amount equal to the financial result from transactions where a trustee (broker, a person entered into transactions under trust deed, commission agent agreement, agency contract to the benefit of a taxpayer, other person recognized as tax agent in accordance with the Code) acts as a tax agent, the tax shall be payable from the amount of the payment.

In the event of the revenue payment in kind the payment amount is determined in the amount of the actually incurred and documented expenses for purchase of the securities transferred to the taxpayer.

Should the amount payable to a taxpayer exceed the calculated amount of the financial result from transactions where a trustee (broker, a person entered into transactions under trust deed, commission agent agreement, agency contract to the benefit of a taxpayer, other person recognized as tax agent in accordance with the Code) acts as a tax agent, the tax shall be paid from the total amount corresponding to the financial result from transactions calculated for such taxpayer where a trustee (broker, a person entered into transactions under trust deed, commission agent agreement, agency contract to the benefit of a taxpayer, other person recognized as tax agent in accordance with the Code) acts as a tax agent.

When income (revenue in kind) is paid to a taxpayer more than once during the tax period, the calculation of tax amount is made on an accrual basis deducting previously paid tax amounts.

Date of actual receiving of income:

- date of payment of income including transferring the income to the taxpayer's bank account or bank accounts of third parties by his order if income is received in monetary form;
- date of purchase of securities.

Should accrued tax cannot be deducted at source (fully or partially), the tax agent (broker, trustee in bankruptcy or other person acting under the trust agreement, commission agreement, other agreement for the benefit of taxpayer or other person recognized as tax agent in accordance with the Code) shall notify the local tax authority on the impossibility to make the mentioned deduction and the amount of accrued taxes of the taxpayer in writing within one month from the date of occurrence of this circumstance. In this case, the amount of tax shall be paid in accordance to the Article 228 of the Tax Code.

Tax agents calculate, deduct and transfer the tax amount deducted from a taxpayer within one month from the end date of the tax period or from the money payment (securities transfer) date.

A taxpayer is eligible for deduction in the actually incurred and documented expenses in tax calculation and payment from the tax agent (broker, trustee, managing company, which administers the property trust constituting the investment mutual fund or from other person acting under the trust agreement, commission agreement, other agreement for the benefit of a taxpayer) or upon termination of the tax period when a declaration is submitted to a tax authority.

## PROCEDURE FOR TAXATION FOR LEGAL PERSONS

Type of tax: income tax

Income includes:

- revenue from transfer of property rights (revenue from sales);
- non-operating income such as interests on securities and other debt instruments and/or from ownership interest in other organizations.

Tax base

Taxpayer income from transaction on sale or other disposal of securities (including redemption) is calculated based on a selling price or disposal price as well as based on the amount of the accrued interest (coupon) return paid by the buyer to the taxpayer and the amount of the accrued interest

(coupon) return paid by the issuer (drawer) to the taxpayer. In this case the amounts of the interest (coupon) return previously recognized at taxation are not included in the taxpayer income from securities sale or other disposal.

Expenses for sale (other disposal) of securities are calculated based on an acquisition price of a security (including acquisition expenses), selling expenses, the amount of discounts off calculated value of mutual funds.

Securities shall be deemed as traded in the organized stock market provided the following requirements are simultaneously met:

1) if they have been admitted to trading by at least one trade organizer who is entitled to do so in accordance with national laws;

2) if the information on their price (quotation) is available in mass-media (including electronic mass media) or can be provided by a trade organizer or by other authorized person to any interested party within three years from the date of transaction with securities;

3) if their market quotation is calculated, when it is stipulated in the respective national laws.

Market price of securities traded in the organized stock market for the taxation purposes refers to an actual selling price or disposal price of securities if this price stays within the interval between the minimum and the maximum price of transactions (price interval) with mentioned security registered by a trade organizer at the date of making such transaction. In case of sale of securities traded in the organized stock market at a price lower than the minimum price of transactions in the organized stock market, the minimum price of the transaction in the organized stock market is accepted when calculating the financial result.

As for securities which are not traded in the organized stock market, actual selling price or disposal price shall be accepted for the taxation purposes, provided that at least one of the following requirements is met:

1) if actual price of the respective transaction is in the price interval for similar (identical, same-class) security registered by a trade organizer as at the date of making the transaction or at the date of the last trading session closed prior to the date of making such transaction if trading for these securities took place at a trade organizer at least once during the past 12 months;

2) if the variation in actual price is within 20 percent upward or downward of a weighted average price for similar (identical, same-class) security as calculated by a trade organizer in compliance with rules laid down by him and based on results of the trading session at the date of making such transaction or at the date of the last trading session closed prior to the date of making such transaction if trading for these securities took place at a trade organizer at least once during the past 12 months.

Tax base for transactions with securities shall be determined by a taxpayer individually, excluding the tax base for transactions with securities which shall be determined by securities market professionals. Taxpayers (excluding securities market professionals who perform dealing activities) shall also determine the tax base for transactions with securities which are traded in the organized stock market and the tax base for transactions with securities which are not traded in the organized stock market separately.

In case of sale or other disposal of securities, taxpayer shall choose, individually and in accordance to accepted accounting policies for taxation purposes, one of the following methods of recognizing the cost of sold securities as expenses:

1) based on the value of those first acquired (FIFO);

2) based on the value of those last acquired (LIFO);

3) based on the value of a unit.

According to accounting policies of the Issuer, recognizing the cost of disposed securities is made based on the value of a unit.

Taxpayers who received a loss (losses) from transactions with securities in the previous tax

period or in the previous tax periods are entitled to reduce their tax base for transactions with securities in the reporting (tax) period (carry forward mentioned losses) in the procedure and on the terms provided in the Article 283 of TC.

In this case, losses from transactions with securities which are not traded in the organized stock market received in the previous tax period (previous tax periods) can be deducted from the tax base for transactions with such securities as calculated in the reporting (tax) period. Losses from transactions with securities which are traded in the organized stock market received in the previous tax period (previous tax periods) can be deducted from the tax base for transactions on sale of this category of securities.

During tax period, carrying forward losses incurred in the respective reporting period from transactions with the securities traded in the organized stock market and the securities not traded in the organized stock market shall be made separately for mentioned categories of securities and, accordingly, within the amount of income received from transactions with such securities.

*3.5. Details on the procedure for taxation of foreign legal persons (non-residents) receiving the income from sources located on the territory of the RF:*

When applying the provisions of the international treaties of the Russian Federation, the foreign organization shall provide a tax agent who pays an income a confirmation that this foreign organization is permanently based in the country with which the Russian Federation has an international treaty (agreement) that governs taxation issues and which shall be certified by an authorized body of the respective foreign country. In case such confirmation is drawn up in foreign language, the tax agent shall be provided with a version translated into Russian language.

When foreign organization entitled to receive an income presents the confirmation to the tax agent who pays an income prior to the payment of income in relation to which an international treaty of the Russian Federation provides tax benefits, such income shall be released from tax deduction at source or tax deduction at source at reduced rates.

In case a tax agent pays an income to a foreign organization which, in accordance to international treaties (agreements) is taxable at reduced rates in the Russian Federation, the calculation and deduction of income tax amount shall be made by the tax agent at the respective reduced rates provided that the foreign organization presents a confirmation provided in the item 1 of the Article 312 of the TC of RF to the tax agent.
