1 Background

(a) The Group and its operations

Open Joint Stock Company Interregional Distribution Grid Company of Siberia (hereinafter – "the Company") was founded to effectively manage the distribution electric grid complex of Siberia as part of the reform process in the Russian electric utilities industry. The Company was established in July 2005 (registered on 4 July 2005) in accordance with the laws of the Russian Federation and based on the Decree of the Chairman of the Board of Directors of the Open Joint Stock Company RAO United Energy System of Russia (hereafter - "RAO UES") dated 1 July 2005, No. 149r.

The Company's registered office is located at 144a, Bograda Street, Krasnoyarsk, Russia, 660021.

On 27 April 2007 the Board of Directors of RAO UES approved the structure of Interregional Distribution Grid Companies. Under the approved structure the following entities were incorporated into the Company: OJSC Altayenergo, OJSC Buryatenergo, OJSC Krasnoyarskenergo, OJSC Kuzbassenergo – RES, OJSC Omskenergo, OJSC Khakasenergo, OJSC Chitaenergo, OJSC Tyvaenergo – Holding. A merger of the Company with those entities was completed on 31 March 2008. The merger was effected through conversion of shares issued by the Company in exchange for shares in the merged entities. As a result of the merger, the above-mentioned entities ceased to exist as separate legal entities and the Company became their legal successor.

The subsidiaries of the Company are disclosed in note 5.

The Company's and its subsidiaries (together referred to as the "Group") principal activity is the transmission of electricity and the connection of customers to the electricity grid. The Group's business is a national monopoly which is under the pressure and support of the Russian government. The Government of the Russian Federation influences the Group's operations through setting transmission tariffs. The Group's tariffs are controlled by the Federal Service on Tariffs and the Regional Energy Commissions.

On 1 July 2008 RAO UES ceased to exist as a separate legal entity and transferred the shares in the Company to JSC Interregional Distribution Grid Company Holding (hereinafter – "JSC IDGC Holding"), a newly formed state-controlled entity.

As at 30 June 2012 the Government of the Russian Federation owned 53.69% of the voting shares and 7.01% of the preference shares of JSC IDGC Holding (31 December 2011: 53.69% of the voting ordinary shares and 7.01% of the preference shares), which in turn owned 55.59% of the Company (31 December 2011: 55.59%).

(b) Business environment

The Group's operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial markets of the Russian Federation which display characteristics of an emerging market. The legal, tax and regulatory frameworks continue development, but are subject to varying interpretations and frequent changes which together with other legal and fiscal impediments contribute to the challenges faced by entities operating in the Russian Federation. The consolidated financial statements reflect management's assessment of the impact of the Russian business environment on the operations and the financial position of the Group. The future business environment may differ from management's assessment.

2 Basis of preparation

(a) Statement of compliance

These consolidated interim condensed financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2011.

(b) Use of judgments, estimates and assumptions

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Notes to the Consolidated Interim Condensed Financial Statements

for the six months ended 30 June 2012 (Unaudited)

(in thousands of Russian Roubles, unless otherwise stated)

In preparing these consolidated interim condensed financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2011.

3 Significant accounting policies

The accounting policies applied by the Group in these consolidated interim condensed financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2011.

4 Determination of fair values

A number of the Group's accounting measures and disclosures require the determination of fair values, for both financial and non-financial assets and liabilities.

In preparing these consolidated interim condensed financial statements, the methods for determination of fair values were the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2011.

5 Group's subsidiaries

The Group's subsidiaries are disclosed below:

| | Owne | ership, % |
|---------------------------------|--------------|------------------|
| Subsidiaries: | 30 June 2012 | 31 December 2011 |

6 Operating segments

The Group has nine reportable segments representing branches and subsidiary of the Company, as described below. These are the Group's strategic business units. The strategic business units offer similar services representing transmission of electric power and connection services, and are managed separately. For each of the strategic business units, the Management Board, the Group's operating decision making body, reviews internal management reports.

"Others" include operations of Group subsidiaries. None of them meets any of the quantitative thresholds for determining reportable segments in 2012 or 2011.

Unallocated items comprise corporate balances of the Company's headquarters which do not constitute an operating segment under IFRS 8 requirements.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Management Board.

Segment reports are based on the information reported in statutory accounts, which differ significantly from the consolidated financial statements prepared under IFRS. The reconciliation of items measured as reported to the Management Board with similar items in these Financial Statements includes those reclassifications and adjustments that are necessary for financial statements to be presented in accordance with IFRS.

15 Contingencies

(a) Insurance

The insurance industry in the Russian Federation is in a developing state and many forms of insurance protection common in other parts of the world are not yet generally available. The Group does not have full coverage for its plant facilities, business interruption or third party liability in respect of property or environmental damage arising from accidents on Group property or relating to Group operations. Until the Group obtains adequate insurance coverage, there is a risk that the loss or destruction of certain assets could have a material adverse effect on the Group's operations and financial position.

(b) Taxation contingencies

The taxation system in the Russian Federation continues to evolve and is characterised by frequent changes in legislation, official pronouncements and court decisions, which are sometimes contradictory and subject to varying interpretation by different tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the authority to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive and substance-based position in their interpretation and enforcement of tax legislation.

These circumstances may create tax risks in the Russian Federation that are substantially more significant than in other countries. Management believes that it has provided adequately for tax liabilities based on its interpretations of applicable Russian tax legislation, official pronouncements and court decisions. However, the interpretations of the relevant authorities could differ and the effect on these consolidated interim condensed financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

(c) Legal proceedings

The Group is a party to certain legal proceedings arising in the ordinary course of business. Management believes than these matters will not have a material adverse effect on the Group's financial position and operating results, except for those disclosed in note 15 (f).

(d) Environmental matters

The Group and its predecessors have operated in the electric transmission industry in the Russian Federation for many years. The enforcement of environmental regulations in the Russian Federation is evolving and the enforcement posture of Government authorities is continually being reconsidered. The Group's management periodically evaluates its obligations under environmental regulations.

Potential liabilities might arise as a result of changes in legislation and regulation or civil litigation. The impact of these potential changes cannot be estimated, but could be material. In the current enforcement climate under existing legislation, management believes that there are no significant liabilities for environmental damage.

(e) Guarantees

On 30 June 2012 and 31 December 2011 there were no financial guarantees issued by the Group.

(f) Other contingencies

The Group believes that the electricity services provided are in compliance with the Russian legislation regulating electric power transmission. However, due to insufficient elaboration of legislation that regulates the lease of Unified National (All-Russia) Electricity Network property ("last-mile") as at 30 June 2012 the Company was the subject of lawsuits for the total amount of RUB 2 218 108 thousand from LLC Rusenergosbyt concerning the legitimacy of the revenue recognition from the transmission of electricity via "last-mile" grids in the period from January to December 2009.

The potential amount of other claims cannot be reliably estimated as each claim would have individual legal circumstances and respective estimation would be based on variety of assumptions and judgements, which makes it impracticable.

The Group did not recognize any provision for those claims as it believes that it is not probable that related outflow of resources or decrease of benefits inflow will take place.

16 Related parties

(a) Control relationships

The Company's parent as at 30 June 2012 and 31 December 2011 was JSC IDGC Holding. The party with the ultimate control over the Company is the Government of the Russian Federation, which held the majority of the voting rights of JSC IDGC Holding.

(b) Transactions with government-related entities

In the course of its operating activities the Group is also engaged in significant transactions with government-related entities. Revenues and purchases from government-related entities are measured at regulated tariffs where applicable.

Revenues from government-related entities for the six months ended 30 June 2012 constitute 26.61% (six months ended 30 June 2011: 33.02%) of total Group revenues, including 25.67% (six months ended 30 June 2011: 32.97%) of electricity transmission revenues.

Electricity transmission costs for government-related entities for the six months ended 30 June 2012 constitute 54.16% (six months ended 30 June 2011: 63.52%) of total transmission costs.

Significant raised and repaid loans from government-related entities are disclosed in Note 12.

(c) Management remuneration

There are no transactions or balances with key management and their close family members except for remuneration in the form of salary and bonuses. Total remuneration paid to management for the six months ended 30 June 2012 was RUB 102 382 thousand (six months ended 30 June 2011: RUB 50 165 thousand).

Total remuneration paid to the members of the Board of Directors for the six months ended 30 June 2012 was RUB 18 627 thousand (six months ended 30 June 2011: RUB 15 659 thousand).

(d) Pricing policies

Related party revenue for electricity transmission is based on the tariffs determined by the government.
